

UK PASSIVHAUS OPEN DAYS 2014

7 - 9 November

An occupied Passivhaus home designed to make minimal demands on the environment. High thermal mass and meticulous airtightness remove the need for active space heating. No mains water or drainage connection: rainwater is harvested, stored and filtered for all uses; the composting toilet waste is dealt with on site. Water is heated entirely by solar panels. PVs supply electricity.

WHEN

FRI 7 9am - 5.30pm
SAT 8 9am - 5.30pm
SUN 9 9am - 5.30pm

Special note - bring indoor shoes if weather is bad
