

# UK PASSIVHAUS OPEN DAYS 2016

11 - 13 November

## WHEN

SAT 12th 11am & 2pm  
SUN 13th 11am

Max people/tour: 10

An occupied detached home in Rutland aiming for certification. Meeting the standard has resulted in a number of significant design changes along the way. The home is integrated into the village by following the vernacular of local farm buildings using a mix of traditional and modern materials including Rockpanel Natural cladding, aluminium faced windows and sensor operated external blinds. It was the construction team's first Passivhaus.
