

# 2018 UK PASSIVHAUS OPEN DAYS

09 - 11 November

## WHEN

SAT 10th 1.30pm - 5.30pm

Tours will run every hour.  
Max. people/tour: 8

This 1978 mid-terrace townhouse in London has become the first certified step-by-step EnerPHit retrofit in the UK. The 3 storey property was purchased in 2016 though only a very small budget was available to carry out building work. The first step in the phased renovation was completed in May 2018 with a resulting reduction in the space heat demand of 53%.
