

THE PASSIVHAUS STANDARD DEMYSTIFIED

A one day conference introducing the Passivhaus Standard to planning officers, building control, architects, and contractors, focussing on the planning, policy, and aesthetic issues
To be held in a completed Passivhaus building at Hadlow College.

8 DECEMBER 2011

Hadlow College, Rural Regeneration Centre, Hadlow, Tonbridge, TN11 OAL

www.hadlow.ac.uk

Nearest train station - Tonbridge.

Programme Overview

Passivhaus Standard is the world's most stringent and accurate standard for addressing energy and human comfort. Following the success of our previous event on 18 October 2011, which focused on social housing, this conference shifts the focus to include the planning policies and aesthetic issues which affect all new and refurbished buildings.

Topics covered

- Current energy framework for planning and building regulations.
- Passivhaus standard explained.
- Tour of Hadlow's Passivhaus building, identifying key visual features.
- Case studies.
- Retrofit of existing buildings to EnerPHit standard.

Speakers

Collectively the speakers have been involved with many of the key low energy and sustainable buildings in the south east in the last 10 years.

Feedback from previous event

"Very good - one of the best seminars I have been to"

"Well done - for a 'non-techy' person it was clear and has given me some enthusiasm"

"Informative and well prepared"

Cost: £ 75.00 per head inclusive of lunch and refreshments
